

Product Change Notice: #VE20210524

Date: May 24, 2021

RE: End-of-Life Notice for Early Version FlatPACs

To Our Valued Customer:

We appreciate your use of Vicor products. The purpose of this notice is to make you aware of a change to the Vicor will be discontinuing the early version FlatPACs and converting customers to the newer version.

Old Part Number and New Part Number Sequences:

Old Part Number		New Part Number*	
VI-LFx-xx	VE-LFx-xx	VI-LUx-xx	VE-LUx-xx
VI-MAx-xx	VE-MAx-xx	VI-MUx-xx	VE-MUx-xx
VI-NAx-xx	VE-NAx-xx	VI-NUx-xx	VE-NUx-xx
VI-PAx-xxx	VE-PAx-xxx	VI-PUx-xxx	VE-PUx-xxx
VI-QAx-xxx	VE-QAx-xxx	VI-QUx-xxx	VE-QUx-xxx
VI-RAxx-xxxx	VE-RAxx-xxxx	VI-RUxx-xxxx	VE-RUxx-xxxx

**Electrically equivalent replacements available for most models*

Reason for the change:

This End-of-life is part of a product consolidation effort.

Differences from the old version to the new version:

The “F” and “A” versions, (Auto input voltage selection) use an analog control architecture for the input voltage selection function. Customers can use the “U” version which uses a Microcontroller to perform this same function. Another significant difference is a change to the output terminals. The early version included tab terminals and the updated version uses sturdier nut and bolt terminations for the power terminals, and an AMP style connector for the sense and trim connections (as shown below).
